

Introduction:

Hi, My name is Keely Woodend, currently I am 15 years old, and I am running for the position of the West Cumbrian Member of the Youth Parliament because I myself have witnessed the very things that us - the youth - are in need of which range from a small scale to a much bigger scale across West Cumbria on a first-hand basis.

My Experience and skills:

At the current moment in time, I have experience with working with a variety of people of all ages and backgrounds as I do Army Cadets, this encourages me to develop a variety of different skills such as Communication, Time management, Leadership, Organisation and most importantly Teamwork. I believe that these skills make me an ideal candidate as most of these skills are widely and already hugely developed due to my experience in the Army Cadet force since i was 12.

What I Plan to do if Elected:

If I was Elected I would aim to:

- Encourage better support for Mental Health for the Young People across West Cumbria.
- Campaign to improve the Standard of Living (such as School or personal problems) - with support to the disadvantaged and struggling Young People across West Cumbria
- Campaign to improve the safety of Young People around and across West Cumbria

I think that these aims will help have a positive impact on young people across West Cumbria because as someone who has personally experienced some of these aims, I thoroughly believe that something and someone should help young people who are in similar situations and/or who have similar thoughts about these aims on a daily basis

Thank you for taking the time to read my Manifesto.
